Agree to accept - Cream Yuyu Stamp Kim Bat

Disagree - Jay Nadia Tong Boom Mild R. Punch

UNESCO - Tonhom

UNICEF - Junior

Director - Bank

Rohingya refugees

- Covered face or body for islamic
- Must show sadness and hunger
- Lack of food and clean water
- Show and
- compromise the officers to bring them to Thailand

Possible dialogue

- We are starving
- We have had no food or water for days.
- If we go back we might be killed
- That is not our home
- We need a shelter for a period not forever

Some information : "Thailand is both a destination and transit country that intercepts Rohingya on their way to third countries. While the majority of Rohingya use it as a transit route to reach Malaysia and Australia, there is a small but significant settled population residing in the country, many of which have lived in Thailand for over twenty years."

- We won't even do anything to your country. We just want to get through to Malaysia where most of the muslims are. Please!
- Please bring our children
- Please bring my child
- We're humans too. This is unfair. Where's the justice??
- Why would you do this to us?
- We don't want to starve to death. Could you please help us.
- We've been struggling for a long time already!
- Why are you so mean?
- We've heard that there are some muslims living in Thailand. Please let us in.

Naval Officer

Agree:

- show empathy
- They are desperate, we can't send them back!!
- We are responsible for them!!
- They might all be killed if we sent them back!
- We have legal regulation to accept those refugee
- They are looking for better living
- They are a human being , so are we, we have to help our friends!!
- They have no places to go, so why sent them back?!
- They just ask for a place to stay just about a week then they will move on. Just a week!
- At least help their child.
- And their mom too!

Disagree

- Where will we place them then?
- It might cause political issue
- Myanmar and Thailand are good friends
- We have too much refugees!!
- They are not even a buddhist!!
- None of the refugees that fled to our country has done anything benefits to us!!
- We can't improve our country by accepting refugees!!
- We can't even speak their language!!
- We can just provide the fuel for their boat but I won't let them get into my country!!!
- Those rohingya that we have accepted also cause a problem for us!!
- We can't handle them anymore!!
- We can just give them food and let them go home.
- They are not coming in my country for sure!!
- They already causes an issue in Cambodia! And they will do to us to if we accept them!
- If we don't control the population, the problems will occurs in our country.
- They might come and cause a crime in our country

UNESCO

For the world now where interconnections and diversity must serve as opportunities to build peace in the minds of men and women, our job as an organisation responsible for coordinating international cooperation cannot interfere in this matter, but to promote peace and human rights, I'd suggest you to launch a campaign to at least improve their lives. By donating money, Rohingya refugees could at least able to settle somewhere with some financial funds we donate them. This is called 'Namjai'.

Plot

- Naval officer's ship faces Rohingya ship
- Head of Naval Officer orders his crews to check out the ship
- Head of Rohingyas asks for helps
- Rohingyas show hunger and sadness
- Rohingyas scream
- Officers have a talk
- Rohingyas want officer to take their kids
- UN calling to officer
- Officers get resolution
- Rohingyas receive food and clean water
- Rohingyas go away
